To do this he feels we must be certain of our figures and reasons. Also we must be sure we are reporting the way other Agencies report on such matters. Also we must inform the Offices concerned that we consider them delinquent. Also what will cure the problem, when and by whom. Naturally we should be doing all these things with or without this GSA report if we find that our program participants are in error. But are they? Or is it only our judgement that what they are doing or are planning is wrong. If they have made plans for emergencies then perhaps they are not incomplete. We must check the plans of OCS, NPIC, OBGI and of Logistics on their Equipment plan before we report them delinquent. His report is to go cut How is July and Office 25X1.
